

Coronavirus Update - 21/3/20

Dear Members and Guests,

Following the latest government update last night (20/3/20), the Clubhouse, restaurant and Halfway House will only be serving takeaways until further notice.

Takeaways from the restaurant will be available from 8am to 8pm daily and can be ordered by calling 01841 520208 (*see below menu*).

In addition, please note the following:

- We will be limiting office visitors to one at a time, in order to protect the staff in line with the government guidelines on social distancing.
- The Fitness Studio will be closed until further notice.
- The Pro Shop remains open but please respect the government's guidelines with regards to gatherings. We will be monitoring this and ask you not to take offence if we restrict your entry to the shop - this will only be requested to protect you and the staff until such a time as it is deemed appropriate to enter.
- Please observe the social distancing advice (2 meters) with staff, fellow Members and visitors.
- We continue to clean and sanitise all touched surfaces across the property (such as door handles, gym equipment, tables, bar tops etc) on a regular basis to try and ensure the Club environment is as safe as possible.
- To help reduce the chance of transmission of infection we encourage you to cover your mouth when coughing, dispose of tissues promptly and carefully, and wash your hands frequently with soap and water for at least 20 seconds (and/or use sanitising gels).

Thank you for your ongoing co-operation and please get in touch if you have any concerns about the the actions we are taking to protect your health and wellbeing.

For the most up-to-date information, please refer to the government website: www.gov.uk/coronavirus or the NHS website: www.nhs.uk/conditions/coronavirus-covid-19/

Golf is great for the body, mind and soul, so we encourage you to continue playing to help keep yourself fit and healthy (and, most importantly, sane) during these challenging times.

Stay safe and play well.

Nick Gammon
Managing Director
